

[illegible]

FIG. 1&lt;PRIOR ART&gt;

FIG. 2 is a schematic diagram of a system 100 for processing a material 150. The system 100 includes a material input 150, a processing unit 200, a material output 250, a control unit 300, a power supply 400, a cooling system 420, a heating system 450, a monitoring system 470, a data storage unit 480, a communication interface 500, a user interface 550, a safety system 600, a security system 650, a backup system 700, a recovery system 750, a disaster recovery system 800, a business continuity system 820, a disaster recovery system 840, a business continuity system 880, a disaster recovery system 900, a business continuity system 950.
